

PRODUCT ADVANTAGES

HIGH-PRECISION PRINTING TECHNOLOGY

EPSON i3200 S1HD print head 1,200dpi reaches the peak resolution of the industry, creating excellent print quality.

ADVANCED PRINT QUALITY

Support white, color, and varnish, printing one time printing, high-speed printing. Easily achieve high-quality print images.

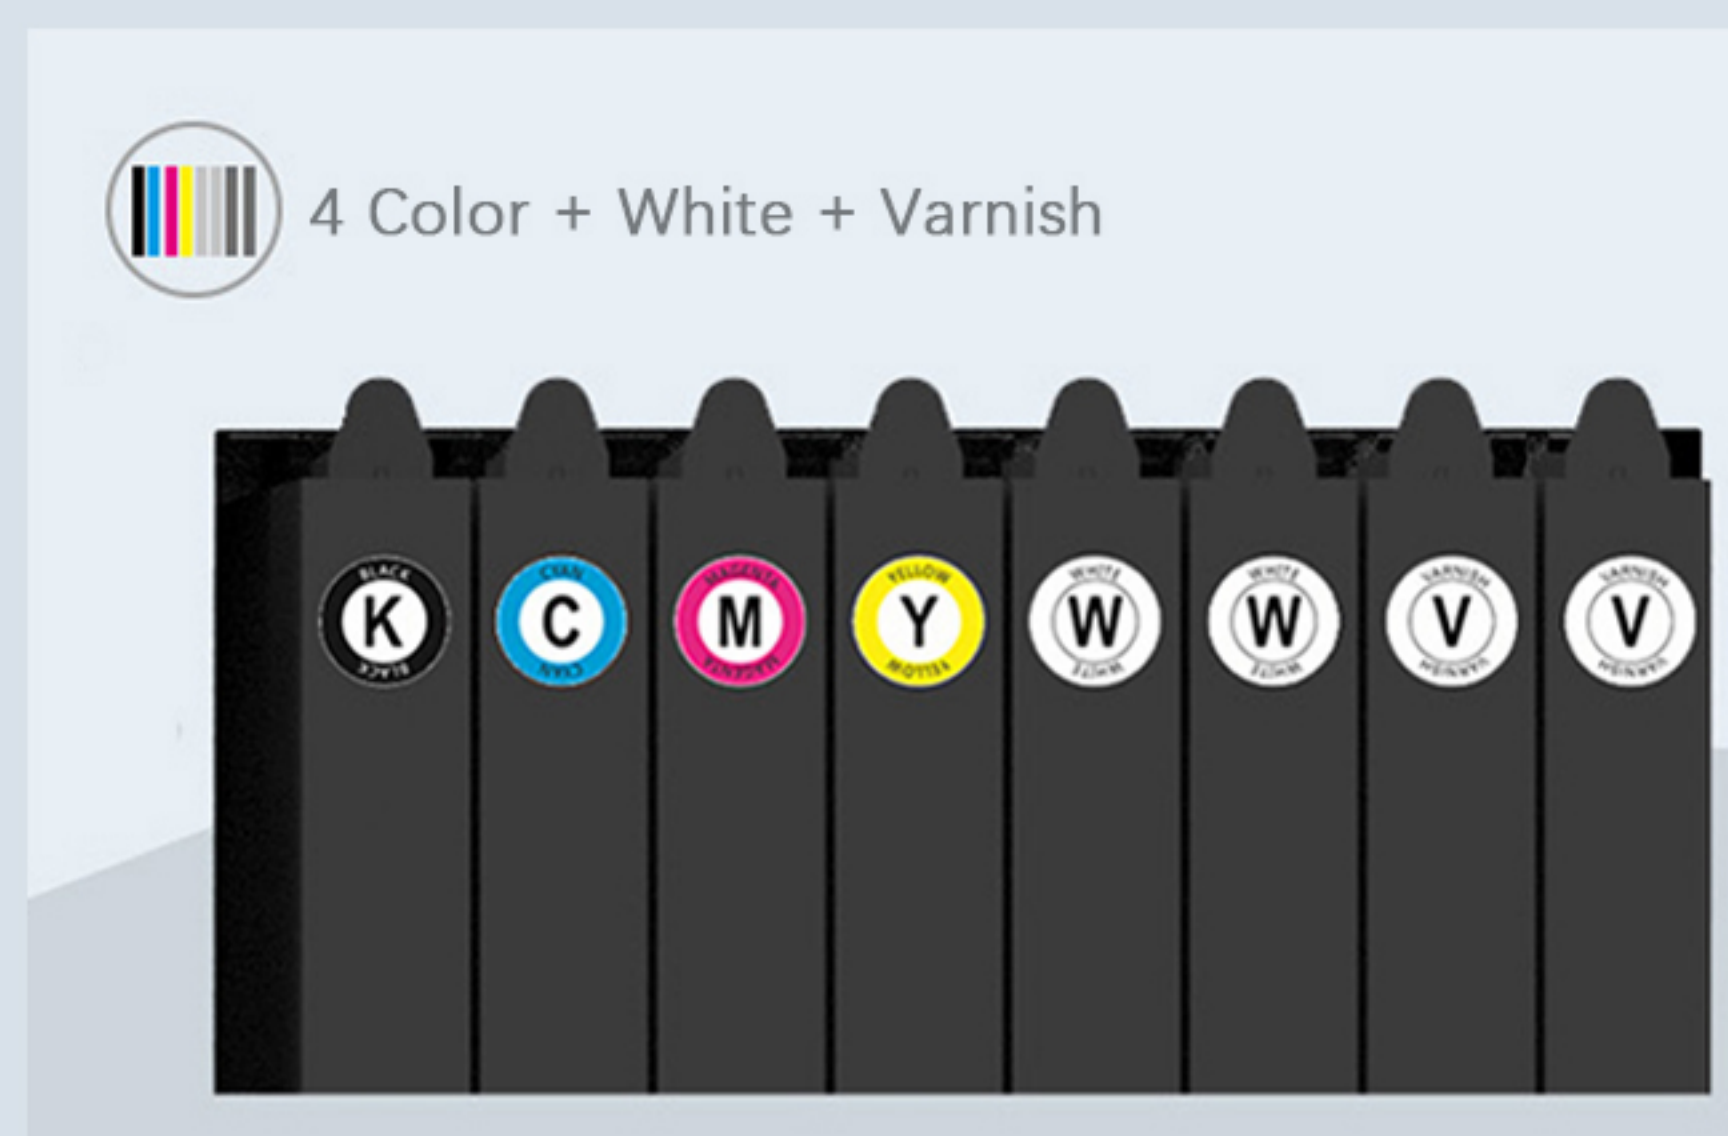

MULTI-FUNCTIONAL DESIGN ONE MACHINE AND TWO USES

One machine meets two requirements and supports flat and roll printing.

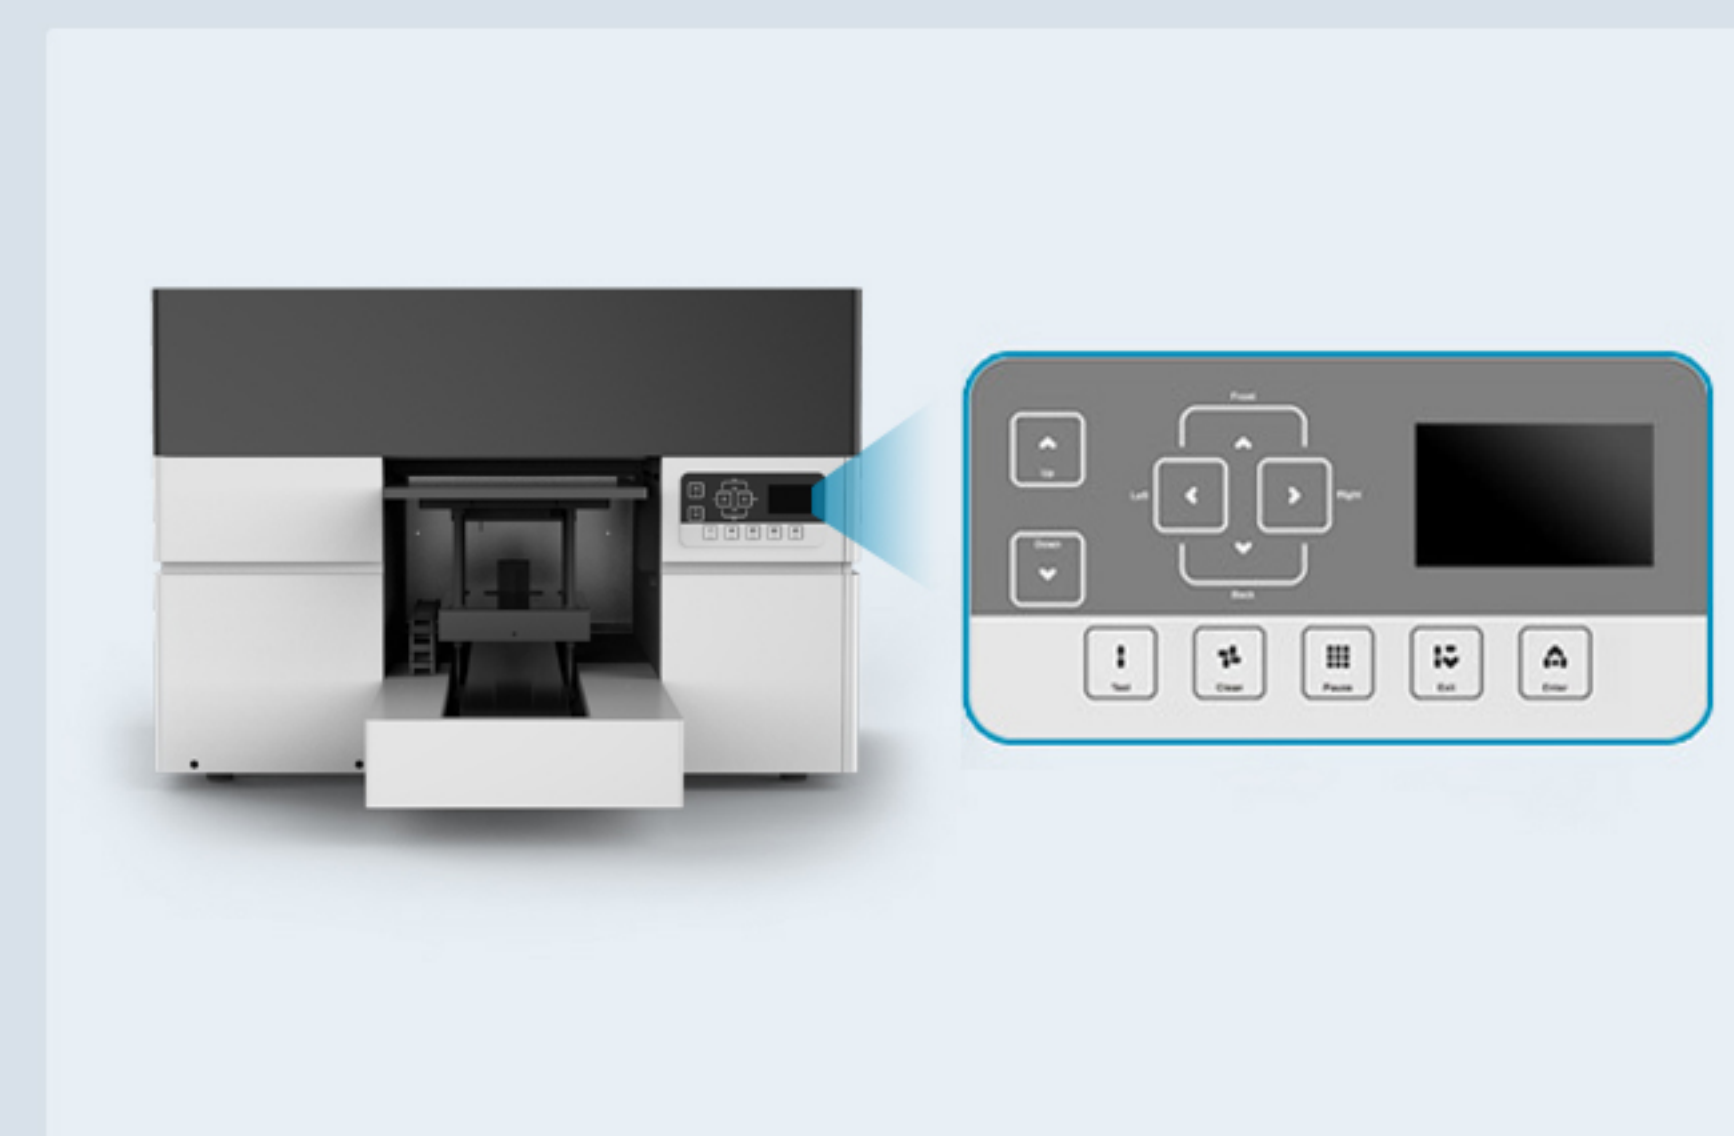

LIGHTWIGHT DESIGN

Compact body, does not take up much space.

INTELLIGENT INK SUPPLY SYSTEM

New ink cartridge design, with automatic ink circulation, ink shortage alarm function.

MULTIFUNCTION CONTROL PANEL

Ergonomic design, in line with people's habits, flexible and easy to operate.

MT - UV A3MAX

APPLICATIONS

UV DTF Printing Solution

UV Direct Printing Solution

PRODUCT PARAMETERS

Model	MT-UVA3MAX
Equipment Prices	Please consult online customer service
Printer Format	420*297mm
Print Head	EPSON I3200
Printing Method	White, Color, Varnish
Print Thickness	0-85mm
Printing Accuracy	Maximum 1200dpi
Print Mode	CMYK+W+V / CMYKLcLm+W
Printing Software	Future Rip
Printer Size	1000mm*902mm*592mm (Length*Width*Height)
Voltage	AC220/110±10,50HZ~60HZ
Graphic Format	Tiff, Jpg, Eps, Pdf, Png, Ai, Psd
Working Environment	Temperature 20°C-28°C, Humidity 35%-65%
Equipment Weight	60KG
Ink Type And Color	UV ink, 4 colors+White+Varnish
Material Type	Glass, Ceramic, Various Signs, Crystal, PVC, Acrylic, Leather Plastic, Etc.
